**Job description:**

This position is responsible for research and analysis of crime risk assessment data including incidents, loss, demographics, etc. As part of CAPAnalytics' team, our analysts deliver impactful data intelligence to help optimize resources, limit exposure, and minimize losses. Duties and responsibilities include:

- Collecting and processing crime data.
- Conducting proof of concept analyses.
- Conducting internal sales analyses.
- Conducting customized risk modeling analyses.

**Minimum education/work experience requirements:**

Graduation from an accredited college or university with a Bachelor's Degree in Statistics, Criminal Justice, Computer Science, Criminology, Economics, GIS, or related field or equivalent number of years of experience.

One (1) year in information processing systems, program evaluation, data visualization and mapping, statistics, and analytical research (preferably in crime analysis).

**How to apply:** Please email your resume and cover letter to Basia Pietrawska, VP, Crime Intelligence Analysis at [bp@capindex.com](mailto:bp@capindex.com).
