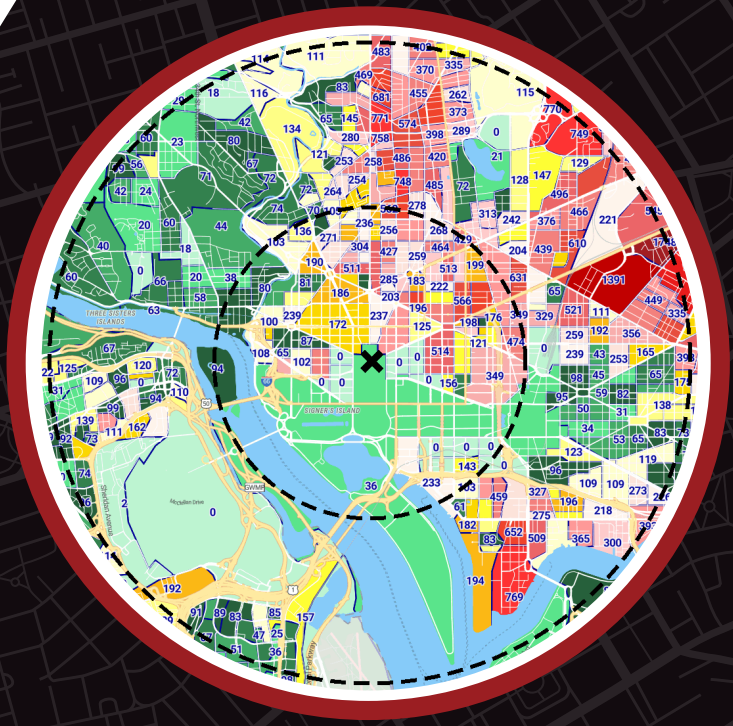
CRIMECAST® PREMIUM REPORT

CRIMECAST® Reports indicate the likelihood of crime and loss occurring at any address in the United States, Canada, Mexico, and the United Kingdom. Each report includes CAP Scores designating the risk of crime as well as detailed maps depicting those risks within a defined radius around each location.



2023 CAP INDEX® SCORES

MAX-3: 385

MAX-6: 597

REPORT COMPONENTS

SCORING METHODOLOGY

This area indicates the scoring methodology being used. Reference the Appendix page for an explanation of the various methodologies.

CAP SCORES

The **National CAP Index® Score** indicates the overall risk of crime at the address.

The report also includes nine specific CAP Scores pertaining to **Crimes Against Persons** and **Crimes Against Property**.

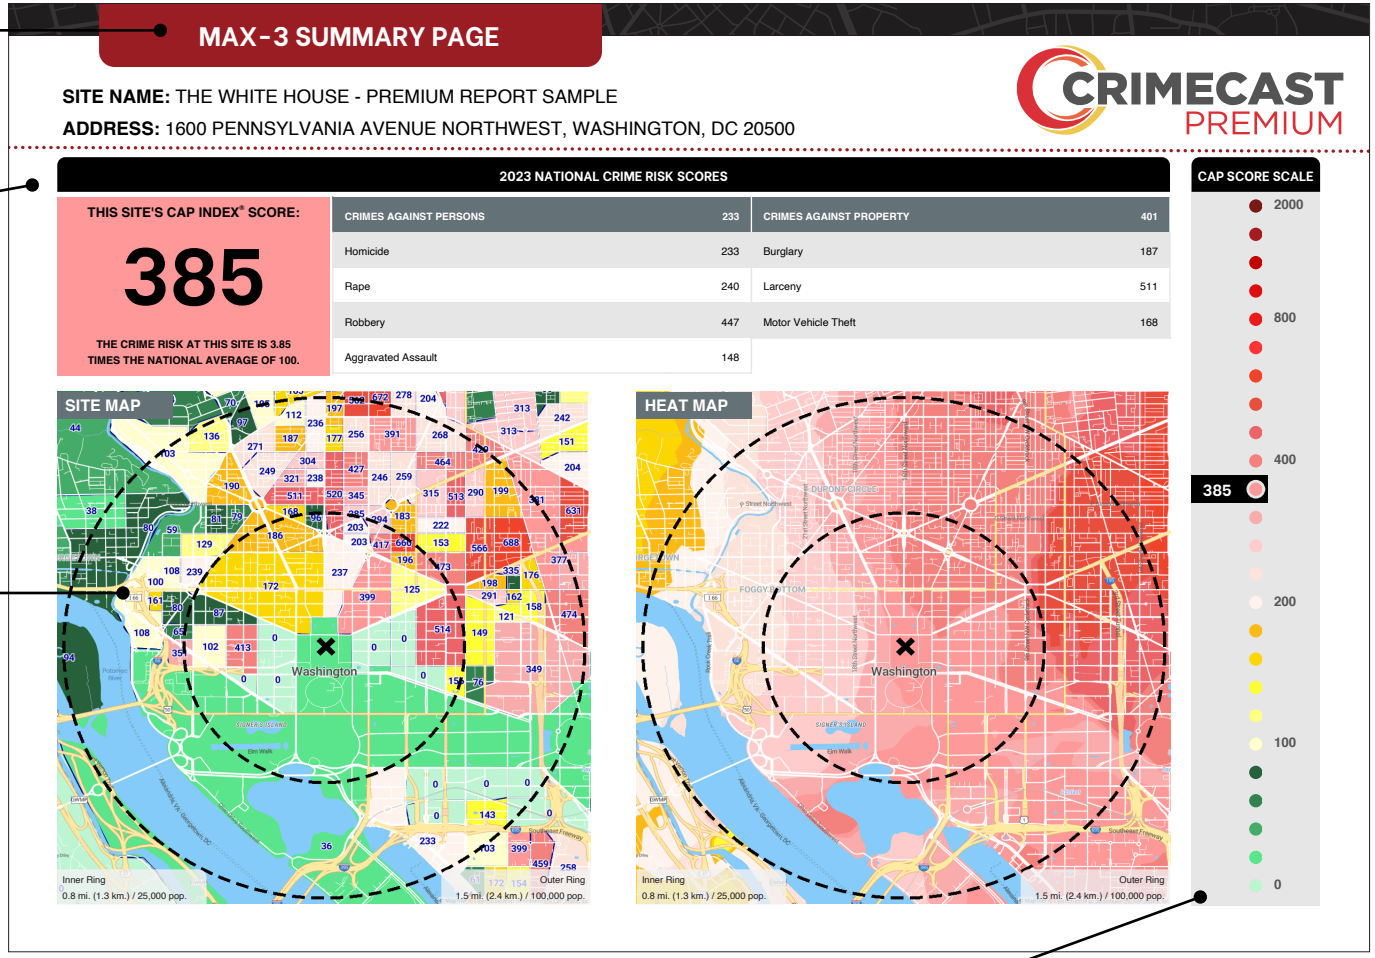
CRIMECAST® MAPS

The **Site Map** shows the **Block Group** Score for each "neighborhood" surrounding a given location. The Site Map helps depict the potential origin of criminal activity occurring at the location.

Every 10 years, the Census Bureau designates block groups in the United States. With the 2023 database release, the number of block groups increased from roughly 217,000 to over 239,000.

The CAP Index Scoring System assigns a numeric risk score and a corresponding risk shading to each block group.

MAX-3 SUMMARY PAGE



The **Heat Map** provides an alternative view of the risk of crime within the map window. CRIMECAST® Heat Maps are developed by calculating the CAP Index® Scores for every point on the map and then shading its corresponding risk level.

CAP SCORE SCALE

CAP Scores range from 0 to 2000, with 0 representing the lowest risk and 2000 the highest; 100 is average. A score of 600 is 6 times the National Average, and a score of 25 indicates a risk that is 1/4 of the National Average.

CRIMECAST PREMIUM

ABOUT CRIMECAST SCORING

THE CAP INDEX® SCORING SYSTEM

The CAP Index® Scoring System uses sophisticated forecasting techniques that combine demographic and business statistics with crime and loss data to calculate crime risk. The foundation of our forecasting approach is the "Social Disorganization Theory," which asserts that higher degrees of social discord in a neighborhood tend to correlate with higher levels of crime.

SCORING METHODOLOGIES

CAP Scores for a specific business application are generated using one of four CAP Index® Scoring Methodologies. These scoring methodologies account for the fact that perpetrators often travel varying distances to commit crimes (the "journey to crime") depending on the target. The scoring methodologies also consider the nature and attractiveness of different types of targets for different types of crimes. Each methodology designates a progressively larger "sphere of influence" that is used to assess the risk of crime. Each sphere is defined by a maximum geographic radius or a population threshold. These spheres have different components that drive the overall crime risk score. The inner part of the sphere focuses on the nearest neighborhoods and receives the higher percentage of the weight. The outer part of the sphere considers more distant avenues of vulnerability and receives the remaining percentage of the weight.

Scoring Methodology	Outer Ring / Population for Assessment	Weight	Inner Ring / Population for Assessment	Weight
MAX-1	1 mile (1.6 km.) **or** 25,000 people	N/A	1 mile (1.6 km.) **or** 25,000 people	100%
MAX-3	3 miles (4.8 km.) **or** 100,000 people	20%	1 mile (1.6 km.) **or** 25,000 people	80%
MAX-6	6 miles (9.7 km.) **or** 400,000 people	20%	2 miles (3.2 km.) **or** 100,000 people	80%
MAX-12	12 miles (19.3 km.) **or** 1,600,000 people	33%	4 miles (6.4 km.) **or** 400,000 people	67%

CAP SCORE SCALE

CAP Scores range from 0 to 2000, with 0 representing the lowest risk and 2000 the highest; 100 is average. A score of 600 is 6 times the National Average, and a score of 25 indicates a risk that is 1/4 of the National Average.

0-99	100-199	200-399	400-799	800-2000
Below Average Risk	*Moderate Risk*	*Mildly Elevated Risk*	*Moderately Elevated Risk*	*Substantially Elevated Risk*

CRIMECAST PREMIUM

RELIED UPON BY OVER **80%** OF THE FORTUNE 100

THE LEADERS IN CRIME RISK FORECASTING

CAP Index empowers organizations to make better-informed decisions throughout the security planning and security management cycle. Whether you are opening a new location, planning security measures for your existing locations, or conducting services off-site, our validated crime risk intelligence will help you create impactful security solutions to protect your customers, employees, assets, and your bottom line.

CRIMECAST® DATA & REPORTS

Quantify and visualize your risk with our detailed, industry-leading, site-specific crime risk reports.

RISK CONSULTING & ANALYTICS

Elevate your security program by having our team of consultants produce a crime risk scoring system tailored to your organization's needs.

TECHNOLOGY, PLATFORMS & MODULES

Manage your security planning process and loss prevention program from one dashboard.

HOW WE HELP: ASSESS YOUR RISK AND OUTSMART CRIME®

- **Make your customers, employees, and assets safer**
- **Optimize the return from your security investment**
- **Reduce litigation and avoid adverse judgments**
- **Reduce crime, loss, and claims**
- **Ensure compliance with industry standards**
- **Protect your brand**
