

U.S. CRIME TRENDS & CORRELATION REPORT

Comparing year-over-year trends from January to September 2019 to 2022

ABOUT THIS ANALYSIS

We conducted an in-depth analysis of over 675,000 address-specific crimes to study trends from Q1 through Q3 over the last four years. In this analysis, we looked at police reports from a select number of U.S. cities that record premises type data. With this information, we are able to conduct in-depth analyses by premises type.

U.S. Crime Trends

					
	Homicide	Robbery	Aggravated Assault	Burglary	Larceny
Jan-Sept 2019	247	10,037	23,006	30,916	112,326
Jan-Sept 2020	319 ↑29.1%	9,070 ↓9.6%	23,213 ↑0.9%	29,927 ↓3.2%	101,910 ↓9.3%
Jan-Sept 2021	315 ↓1.3%	8,236 ↓9.2%	23,953 ↑3.2%	23,635 ↓21.0%	96,450 ↓5.4%
Jan-Sept 2022	516 ↑63.8%	10,389 ↑26.1%	25,959 ↑8.4%	27,612 ↑16.8%	120,849 ↑25.3%
	94% of Homicides occurred at locations with a CAP Score of 200 or higher	87% of Robberies occurred at locations with a CAP Score of 200 or higher	86% of Aggravated Assaults occurred at locations with a CAP Score of 200 or higher	79% of Burglaries occurred at locations with a CAP Score of 200 or higher	78% of Larcenies occurred at locations with a CAP Score of 200 or higher

CRIMECAST[®] REPORTS TO IDENTIFY THE RISK OF CRIME AT ANY ADDRESS

Use CAP Scores to keep your customers and employees safer.

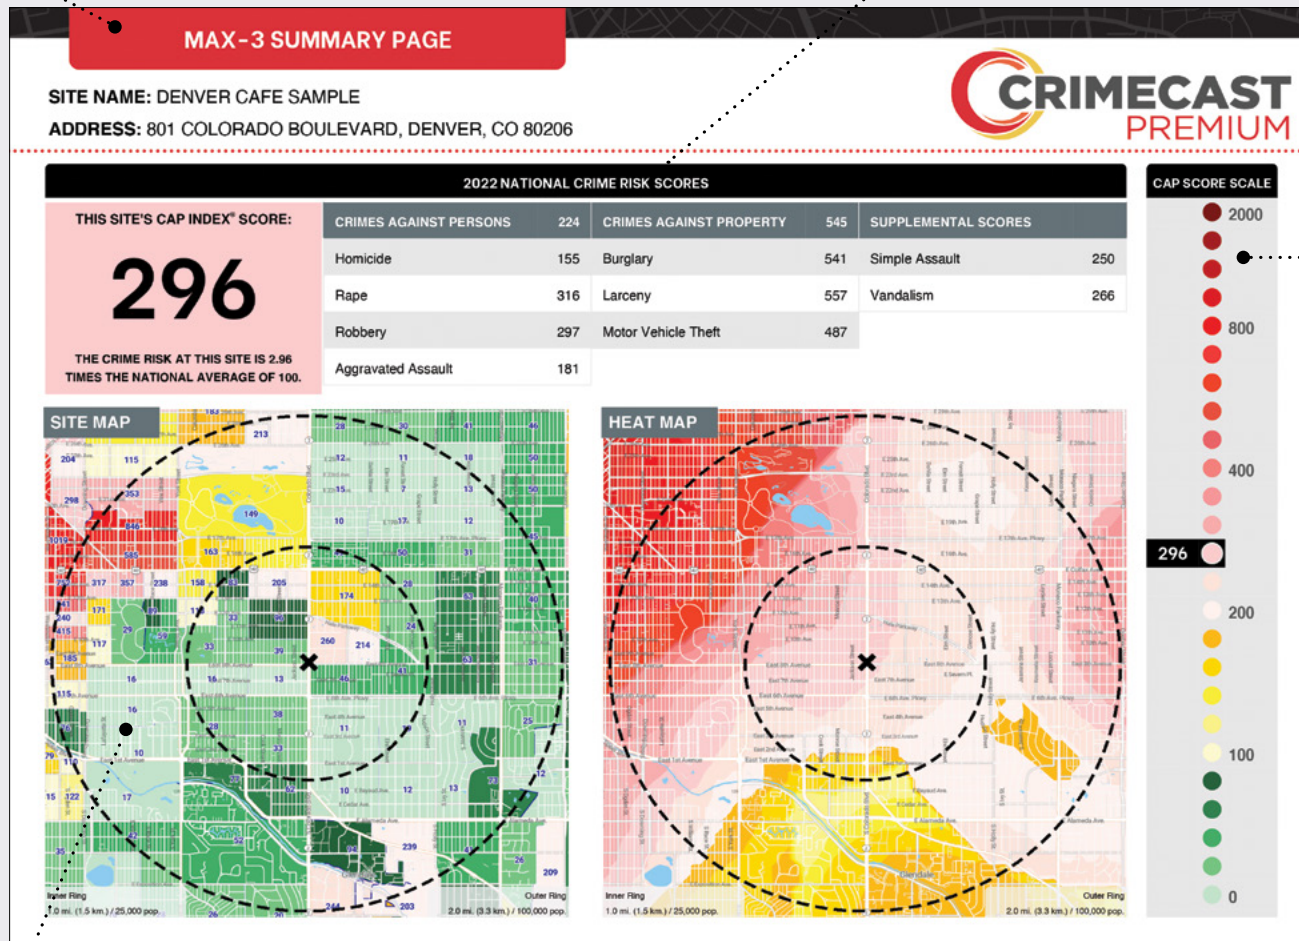

MULTIPLE SCORING METHODOLOGIES TO CHOOSE FROM

Four different “spheres of influence” to account for a perpetrator’s “journey to crime” and the nature and attractiveness of different types of targets.

CAP SCORES

Indicate the likelihood of crime and loss occurring at any address in the United States, Canada, and the UK.

CRIMECAST MAPS

Depict the risk of crime within a defined radius around each location. **Site Maps** show the Block Group Score for each “neighborhood” surrounding a given location and help depict the potential origin of criminal activity occurring at the location. **Heat Maps** provide an alternative view of the risk of crime within the map window by calculating the CAP Index for every point on the map and then shading its corresponding risk level.

KEY BENEFITS

- ▶ Proactively identify crime risks and deploy security resources where they are needed most.
- ▶ Leverage comprehensive, accurate, and objective data for your security decision-making processes.
- ▶ Benchmark locations and delivery routes to optimize security budgets based on hard data.
- ▶ Determine the right security plan for each new location.
- ▶ Mitigate crime risks and protect your brand reputation.
