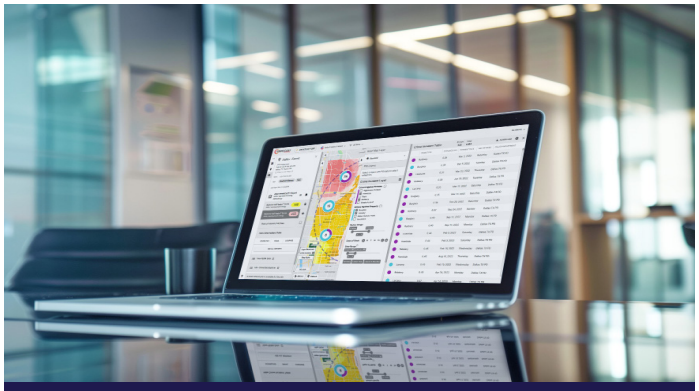
Crime Incident Feature

Instant Access to the Latest Local Crime Data

Enhanced Crime Insight for Better Security

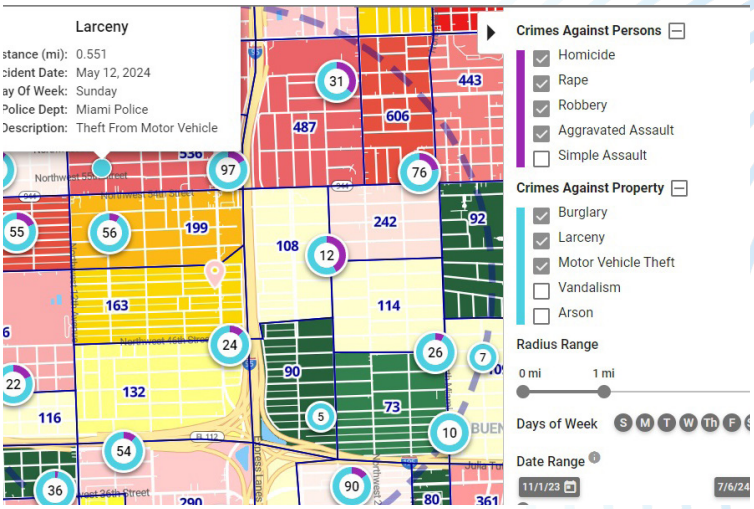
CAP Index's Crime Incident Feature is your go-to resource for the most up-to-date information on crime incidents near your locations (where available). **Access the latest available crime incident reporting from local law enforcement nationwide, all within the CRIMECAST System.**

The Crime Incident Feature gives you added insight into the current crime landscape at your locations, empowering you with data to contextualize crime incidents and review security strategies to optimize safety and spend.



Get a comprehensive view of crime incidents at your locations.
Filter by:

- **Crime Type**
- **Date range**
- **Day of week**
- **Specific distance from a location**



What You'll Get

Seamless Integration: Access local crime incident data from within the CRIMECAST System.

Enhanced Insights: Tap into a more dynamic approach to crime prevention and analysis.

Streamlined Access: Avoid wasted time searching for local police data.

Detailed Visualization: See the full picture of crime occurrences near your locations (where available). Data can be visualized as a map overlay or in tabular format.

Why CAP Index?
